## Issue Resolved by This Update

Ranges of the Analysis Types are not fully visible inside the Surface Analysis Tab of the Surface Properties in Japanese version of AutoCAD® Civil 3D 2013.

To resolve this issue, download and install this file "JPN-CIV13-1583.zip".

## Installation Instructions

Note: You must have **administrative privileges** on your Microsoft Windows operating system to apply this hotfix.

Download the appropriate version of the hotfix (32-bit or 64-bit) based on your operating system type.

1. On the computer where the product is installed, close all software applications.

2. Download "**JPN-CIV13-1583.zip**" file to a location on your local computer. Unzip the archive.
  
3. Take the AeccUiLandRes.dll from the hotfix and replace this file in your AutoCAD Civil 3D installation directory. The default path is:  
<local\_drive :> Program Files\Autodesk\AutoCAD Civil 3D 2013\ja-JP\AeccUiLandRes.dll
