

**NOTE:** The Civil 2010 Subscription Advantage Pack **cannot be merged** with an existing administrative image.

### **Appending the Civil 2010 Subscription Advantage Pack to an Existing Administrative Image**

This method applies to an existing administrative image that has been appended with SP2

1. From the Autodesk Subscription Support website, download the Subscription Pack executable to the administrative image's \AdminImage\x86\ServicePacks folder.
2. Browse to the administrative image's \AdminImage\ folder and open the administrative image's INI file in Notepad.
3. In the CIVIL Prerequisite section, append the section with the following:  
[SAP]  
PRODUCT\_NAME=Civil 2010 Subscription Advantage Pack  
EXE\_PATH=ServicePacks\Civil\_2010\_Sub.exe  
EXE\_PARAM=/q  
IGNORE\_FAILURE=YES
4. In the CIVIL section, update the Postrequisite variable to:  
POSTREQUISITE=SAP
5. Save the INI file with a new name
6. In your administrative image's root folder, copy the existing administrative image's shortcut and rename it to match the modified INI file.
7. Right click on the new shortcut, select properties and update the Target field to match the modified INI file.

**NOTE:** The Civil 2010 Subscription Advantage Pack **cannot be merged** with an existing administrative image.
