

Enfo Systems

Enfo Systems has focused on the Integration of business processes and systems to a Service Oriented Architecture (SOA) since we started in 2001. We are working to create value for our customers through smart Integration Solutions and has extensive experience and expertise. We help our customers from the required organization and processes to all the way design, development and maintenance to get the full value of a Service Oriented Architecture. Enfo Systems is a strange company. As a customer you cannot use us for all that many things - on the other hand, if your need is integration, we're the experts!

We consist of approx. 150 people who all share one thing – a passion for integration and how integration solutions create new business value for our customers. We are passionate about what we do and for the software vendors that we work with. As a company we have a number of core values that are important to us, in short, a Zpirit within our company and a Zpirit between us as individuals:

- **Share for success, question for improvement.**
- **Opportunity to shine, dedication to customer success.**
- **Quality of life, passion for what we do.**
- **Acting with responsibility, creating sustainable relations.**

We would like to welcome you as a customer to a company that's passionate about creating business value for you by smart and agile integration solutions. We give you access to packaged solutions to get you started, fixed-price Integration Solutions and Integration Maintenance and most importantly – the industry's most highly skilled consultants who are passionate about what we do and how we can help you achieve your goals.
