Autodesk

<u>Autodesk Mudbox 2009 – Service Pack 1</u>

(Windows XP® and Vista®)

This document contains important information regarding the Autodesk Mudbox® 2009 – Service Pack 1 and instructions for installation.

Important:

- You must be logged in as system administrator in order to install Autodesk Mudbox 2009 – Service Pack 1.
- You must uninstall Mudbox 2009 and delete your Mudbox user settings before installing the update.
- If operating Mudbox in a network license configuration, you should install Autodesk Mudbox 2009 – Service Pack 1 on all client machines.

Step 1: Download Autodesk Mudbox 2009 – Service Pack 1

From the Mudbox **Data and Downloads** page, download the appropriate file for your operating system:

32-bit Operating System: Autodesk_Mudbox_2009R1_English_Win_32bit.exe
64-bit Operating System: Autodesk_Mudbox_2009R1_English_Win_64bit.exe

Step 2: Uninstall Mudbox 2009

Windows XP
1. Open the **Add or Remove Programs** dialog box: `Start > Settings > Control Panel`
2. Select **Autodesk Mudbox 2009**.
3. Click **Remove**.

Windows Vista
1. Open **Programs and Features** in: `Start > Control Panel`
2. Select **Autodesk Mudbox 2009**.
3. Click **Uninstall**.

Step 3: Delete Mudbox 2009 user settings

Windows XP
1. Navigate to: `<drive>:\My Documents\Mudbox\2009` (Windows XP 64: `2009-x64`)
2. Delete the **settings** folder.

Windows Vista
1. Navigate to: `<drive>:\Users\<username>\Documents\Mudbox\2009` (Windows Vista 64: `2009-x64`)
2. Delete the **settings** folder.

Step 4: Install Mudbox 2009 – Service Pack 1

1. Double-click the **.exe** file you downloaded to launch the installer.
2. Follow the instructions and click **Next** when prompted.
3. Click **Finish**.
