

System Requirements

Autodesk Simulation 2012 (32-bit, 64-bit Windows)

- Windows® 7 Home Premium, Professional, Enterprise, Ultimate; Windows Vista® Home Basic, Home Premium, Business, Enterprise, Ultimate (SP2); Windows XP Professional (32-bit: SP3, 64-bit: SP2); Windows Server® 2003, 2008 R2¹
- Intel® Pentium® 4 (1.8 GHz CPU speed or faster), Intel Xeon®, Intel Core™, AMD Athlon™ 64, or AMD Opteron™ or later¹
- 2 GB RAM or higher^{1,2}
- 30 GB or higher of free disk space (8 GB free disk space for installation)
- 512 MB DRAM or higher OpenGL-capable graphics card
- 64K color setting at 1,024 x 768 or higher screen resolution
- DVD-ROM drive³
- Microsoft Mouse-compliant pointing device
- Web browser
- Internet connection for web downloads and Subscription Aware Access

Autodesk Simulation 2012 (32-bit, 64-bit Linux)⁴

- Fedora™ Core 6; Red Hat® Enterprise Linux® WS v.5¹
- Intel Pentium 4 (1.8 GHz CPU speed or faster), Intel Xeon, Intel Core, AMD Athlon 64, or AMD Opteron or later¹
- 2 GB RAM or higher¹
- 30 GB or higher of free disk space (80 MB free disk space for installation)
- CD-ROM drive³

Notes

¹For superior performance, Autodesk recommends a supported 64-bit operating system, a supported 64-bit processor, and 8 GB RAM or higher.

²Autodesk recommends settings that allow Microsoft Windows to manage virtual memory, as needed. There should always be at least twice as much free hard disk space as system memory (RAM).

³Autodesk Simulation software is only available on CD and DVD media or electronic download. CD-ROM and DVD-ROM drives are not required if installing using electronic download.

⁴The Autodesk Simulation user interface is not supported on Linux platforms.
