

What's New in AutoCAD Map 3D 2013 software:

AutoCAD® Map 3D software is a model-based infrastructure application that provides broad access to CAD and GIS data, helping GIS, planning, and engineering professionals access, evaluate, and share data to make informed decisions.

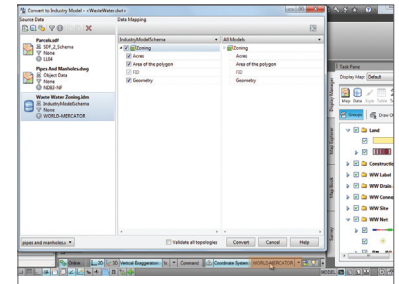

With AutoCAD Map 3D:

Las Vegas Valley Water District shrinks project backlog, completes projects 20% faster, and reduces data correction 15% for \$460,000 annual data management savings.

North East Water (Australia) spends 10 minutes capturing as-built data for new subdivisions where previously it took 1-1/2 days. Now they are providing more consistent, complete, and accurate information to the enterprise.

> Gathering Existing Conditions

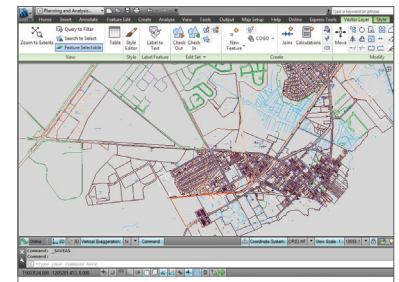

- Enhanced capability to convert GIS & CAD data to Intelligent Industry Models.
- Pictometry® Plug-in for AutoCAD Map 3D 2013
- Earthmine® Plug-in for AutoCAD Map 3D 2013

Industry model data conversion wizard

> Data Access and Editing

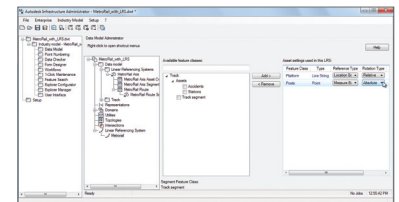

- Enhanced AutoCAD editing capabilities for GIS and CAD data and for industry model data
- Access to industry models in more formats (e.g. Microsoft® SQL Server®)
- Checkout enterprise industry model data for use in the field utilizing industry models in queued edit mode

Access to industry models in SQL Server

> Planning and Analysis Tools

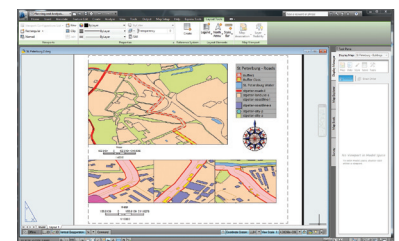

- Configure and utilize Linear Referencing Systems with industry models
- Dynamic, data-driven tool-tips and hyper linking from geospatial data

Linear referencing systems

> Publishing and Interoperability

- Data Exchange with AutoCAD® Civil 3D® and AutoCAD Utility Design
- Publish Native DWG to Autodesk® Infrastructure Map Server
- Dynamic legends, north arrows, and scale bars
- Dynamic tooltips and links
- Mobile Viewer extension

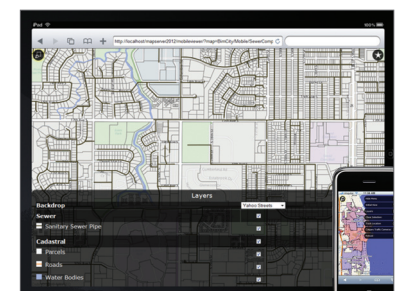

Dynamic legends, north arrows and scale bars

AutoCAD® Map 3D 2013 software is included in the Autodesk® Infrastructure Design Suite, a comprehensive BIM for Infrastructure solution.
